**Re: Renaming of Alexander W. Dreyfoos School of the Arts (the "School")**

Dear Dr. Fennoy:

As a follow-up to my April 24, 2019 letter to you, Mr. Dreyfoos has asked me to inform you that he is respectfully withdrawing his request to add "and Sciences" to the name of the School. He attended the School SAC meeting on May 1<sup>st</sup> and has read and carefully reviewed every comment and suggestion posted by current and former students, parents and teachers concerning the suggested name change. Mr. Dreyfoos is deeply moved by the pride and passion they have collectively demonstrated. He feels that their pride and passion cannot be ignored. Therefore, his request for a change of the school name is respectfully withdrawn.

As a side note, Mr. Dreyfoos is extremely proud of the School, his long affiliation with public education in Palm Beach County, and his patronage of the arts. This withdrawal does not in any way diminish his pride in what has already been achieved at the School.

Thank you for the thoughtful attention you and your staff have given this matter.

Sincerely,  
Shutts & Bowen LLP
